## Our Mission

We are committed to making your life simpler by offering you products that deliver better results while requiring fewer product purchases. With our **6 minutes, 6 products, 1 brush program** you have everything you need to look effortlessly beautiful while feeding and healing your skin from the inside.

All in **JUST 6 MINUTES** leaving you with more time in your day to do the things that matter most to you.

M5

MacroMarine 5® is our proprietary complex which combines a host of natural marine and botanical extracts that based on their unique quality and quantity are introduced into the skin for a more effective absorption and increased nourishing benefits.

## 6 MINUTES. 6 PRODUCTS. 1 BRUSH KIT.

Imagine doing your makeup and having it completely blended and customized in minutes using just 6 products and 1 brush. The products are formulated to work with your skin as skin care and the brush too is designed to be used and washed daily for better skin health and bacteria free!

### SKIN REBOOT

A patented transeutical® cream that provides a one step multi-tasking moisturizer, primer, mixer and night cream all in one. Made with MacroMarine 5®, it hydrates, nourishes, aids in anti-aging and provides a natural skin barrier that protects all day long.

### SEAMLESS FOUNDATION

Lightweight natural liquid foundation that leaves a soft medium build-able coverage with an almost naked, no powder needed finish.

### SEAMLESS CONCEALER

Natural, hydrating concealer that provides medium-to-full, buildable coverage and corrects, contours, highlights, and perfects.

### CHEEK AND EYE POWDER

Three shades for all skin tones. Two colors that work independently on both the eye and the cheek area. When combined they create the perfect glowing blush for all skin tones.

### B3 MASCARA

Bigger, Better, Bolder mascara that creates eye catching lashes in seconds with a one of a kind formula, with intense black pigment that curls, defines, strengthens lashes and is smudge resistant.

### UNIVERSAL BROW PENCIL

Dual ended brow gel pencil and brush allows you to nourish your brows while you shape and fill in leaving you with perfectly natural looking brows at all times. Automatic pencil, no sharpening, water resistant, pro hair strengthening.

### MASTER "M" BRUSH

1 Brush 7 uses. Designed exclusively by GERI G. this brush is made to make your life easier and your skin healthier. From the lipstick styled handle for better control and maneuvering to the angled cut for precision use around hard to reach areas to contours of the face and eyes.

## How To Apply

### 1 SKIN REBOOT

Apply 1-2 pumps of skin reboot to the entire face and neck, include lashes and eye brows too.

### 2 SEAMLESS FOUNDATION & MASTER BRUSH

Start with one pump of foundation directly to the master brush and gently stifling (pressing) the brush to deposit the foundation on to the skin effortless blending as you go.

### 3 SEAMLESS CONCEALER

Start with a very small amount on to the tip of the master brush. Use a dabbing motion with the brush to deposit the color under the eyes as a concealer and highlighter all in one, down the nasal labial folds and mouth area for softening of fine lines and noticeable pores.

### 4 EYE & CHEEK POWDER

Place neutral shimmer into the lid, use the tip of the master brush and apply to the crease of the eyelids and under cheekbones for natural color and contour. Add matte peach to the lower eyelids to brighten. Mix the 2 colors together to create the perfect blush.

### 5 B3 MASCARA

Apply mascara first onto of the upper lashes, using the ball end of the applicator to deposit the color onto the top lashes. Next, pull through the underneath of the lashes to create volume and length to the top lashes. Use the ball end to the bottom lashes for definition and lengthening of the lashes.

### 6 UNIVERSAL BROW PENCIL

Using small strokes apply pencil to the brows where you need color and contour. Brush through the brows to evenly balance the color and create structure. Works for all hair colors.

*Don't be afraid to experiment with makeup. GO shopping in your makeup drawer. For the first time, because our products are developed to blend together seamlessly without breaking down, you can mix different products together and create your own signature look.*

### ENTRYWAY / STAIRS

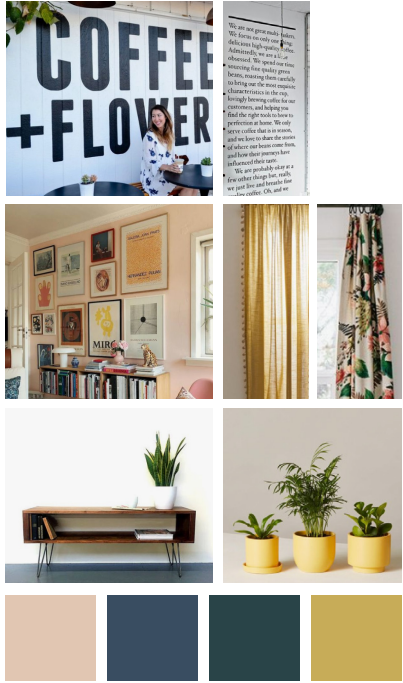

In this area, we want to create a space that will convey what's happening up the stairs.

We'd like to use a color palette that includes the colors shown here, with the stairs painted black as shown in the photo.

As you enter the landing at the top of the stairs, the left wall would remain white, and could have a graphic that includes a saying, such as Good Times. Good People. Good Coffee. or It's All Good. The idea is to create a focal wall that may draw people to take photos.

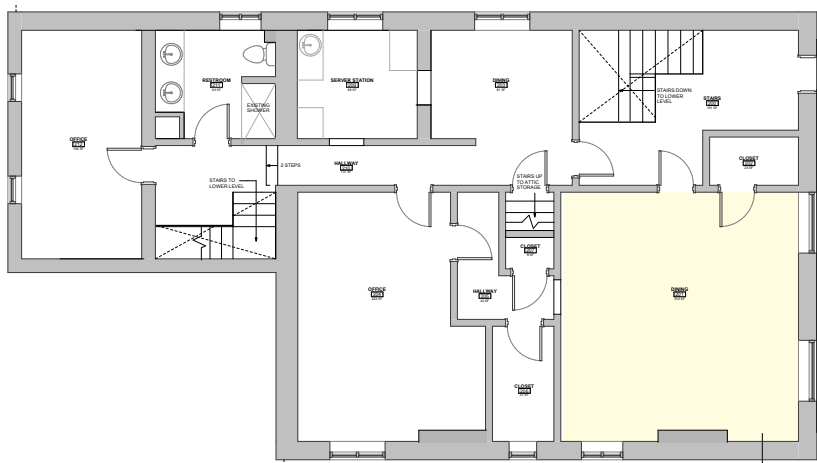

On the right wall, there would be a table in the style shown here.

There should be no seating here, as this will be a high traffic area, and we would want people to be able to stand and take photos.

### DECOR

- + Curtains would be a mustard color or a funky floral.
- + Table should be adorned with simple potted plants in the style shown.
- + Above the table there should be various framed art pieces.

### ROOM 201

The focus of this space is to connect and be present with the people you're surrounded by. The idea is to hang out and play games, so this space has various seating arrangements and options for seating.

By the windows, two-seater configurations should be placed for intimate options or people who are working. These should be the chairs as shown.

The other seating arrangement should be living room style with a couch and chairs, end tables and a coffee table. Games or computers can be set on the coffee table, and drinks on the end tables.

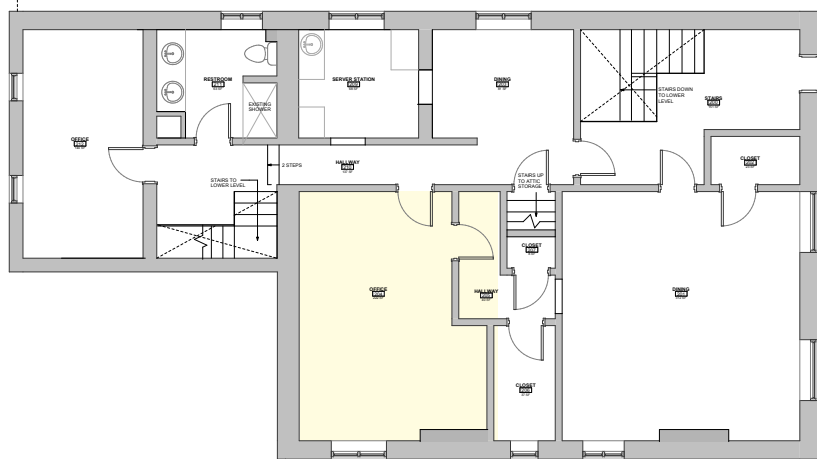

This room should use shelving in areas with games so they're easy to grab.

A funky wallpaper can be added on one wall to create a focal point or to be used behind the shelving areas if budget allows.

### DECOR:

- + White or off-white walls
- + Black window trim
- + Black painted fireplace with wood inside
- + Various artwork and frame sizes on walls
- + Eclectic pillow patterns scattered on seating
- + Real plants on shelving and tables and floor pots
- + Color scheme is jewel tones - green, blue, teal, mustard

### ROOM 204

The focus here is providing a space for cocktails and night-time lounging, but still ensuring it's conducive to day hangs.

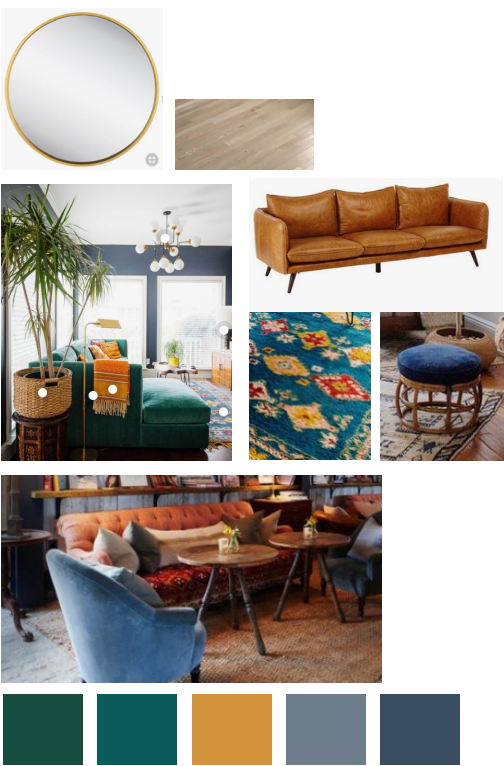

The furniture in this space includes a mixture of sofas, side chairs, and small tables. Additionally ottomans in the style shown can be used for additional seating.

Near the windows there should be two seater seating.

The rug should be in the color shown with a pattern and fringe.

### DECOR:

- + Wall color should be dark navy
- + Window trim should be light warm greige
- + Fireplace should have a round gold framed mirror above it
- + Real plants should be placed throughout the space in the styles shown
- + Color scheme is as shown. Vintage furniture can take on any of the colors shown as long as the pieces complement one another.

### ROOM 203

This space is smaller, so should have a more intimate seating setup. This includes two comfy chairs and one end table between them, or one table and a small couch.

This room should not be overcrowded as people will walk through into library room.

### DECOR:

- + Eclectic pillows should be placed on each of the chairs
- + Walls should be a off white or light cream color that compliments the gray cabinets
- + The existing light grey cabinets should stay as is and you should fill them with an eclectic mix of vintage coffee cups.
- + Hanging plants should be in front of windows as shown.

## THE PROCESS

## logo development

Our team will create custom logo options that are designed to provide you with a foundation for telling your story. The resulting logo will speak life into your concept, and will last you about 10 years. We'll present three logo options and upon selection, we will supply you with final JPEG, EPS, and PDF logo files in full color, black, and white.

[LEARN MORE](#)

**brand  
stationery**

Utilizing your logo design and brand colors, we'll create custom-designed business cards, presenting you with up to three options. Upon selection, we will develop an accompanying letterhead with matching envelope and notecard. We'll advise on the best paper types and print finishes. Plus, we'll coordinate printing.

**website design  
+ development**

We will design and build a custom WordPress website for your business. With a priority on user experience, we'll start with wireframing. Upon approval, our team will then implement your brand look and feel into the design and then build the website on an easy-to-update WordPress platform. If you choose to host with us, we will take the site live.
